---

### Academic & Research Positions

#### **Georgia Institute of Technology**

Professor and Chair, School of Computer Science, July 2012–

#### **Toyota Technological Institute at Chicago**

Adjunct Professor, February 2007–August 2018

#### **Northwestern University**

Professor of Electrical Engineering and Computer Science, January 2008–June 2012

Professor of Managerial Economics and Decision Sciences,

Kellogg Graduate School of Management (Courtesy), January 2008–June 2012

#### **University of Chicago**

Professor in Computer Science and the College, September 2003–December 2007

Associate Professor in Computer Science and the College, July 1994–August 1999

Assistant Professor in Computer Science and the College, July 1989–June 1994

#### **NEC Research Institute**, Princeton

Senior Research Scientist, September 1999–September 2003

#### **Princeton University**

Visiting Lecturer in Computer Science, September 2001–January 2002

#### **Centrum voor Wiskunde en Informatica**, Amsterdam

Visiting Professor, August 1996–August 1997

### Education

#### **Massachusetts Institute of Technology**

Doctor of Philosophy in Applied Mathematics, June 1989.

Thesis Title: Complexity Theoretic Aspects of Interactive Proof Systems.

Thesis Advisor: Michael Sipser.

#### **Cornell University**

Bachelor of Arts with distinction, May 1985.

Summa Cum Laude in Mathematics, Cum Laude in Computer Science.

### Awards

EATCS-IPEC Nerode Prize, 2014

ACM SIGACT Distinguished Service Award, 2014.

ACM Fellow, 2007

NSF Presidential Faculty Fellow, 1992–1998.

Fulbright Scholar in The Netherlands, 1996–1997.

Office of Naval Research Graduate Fellow, 1985–1988.

Kieval Prize for best graduating mathematics major at Cornell, 1985.

Phi Beta Kappa and Phi Kappa Phi honor fraternities.

<b>Students Advised</b>	<p>Ph.D. Advisor:  Arefin Huq (Georgia Tech, May 2016), Joshua Grochow (Chicago, June 2012), Varsha Dani (Chicago, March 2008), Jason Teutsch (Indiana, January 2007), Rahul Santhanam (Chicago, June 2005), Dieter van Melkebeek (Chicago, June 1999, ACM Doctoral Dissertation Award), Sophie Laplante (Chicago, December 1997), Lide Li (Chicago, August 1993), Carsten Lund (Chicago, March 1991, ACM Doctoral Dissertation Series Winner)</p> <p>Joint research included in Ph.D. Theses:  André Souto (Porto, March 2011), Luis Antunes (Porto, February 2002), Tuğkan Batu (Cornell, August 2001), John Rogers (Chicago, June 1995), Stephen Fenner (Chicago, June 1991).</p> <p>Supervised Illinois Math and Science Academy high school student Adam Kalinich 2010-2011. Kalinich chosen as an Intel Science Finalist in 2012 for this research.</p>
<b>Service</b>	<p>CRA Board, 2012-2015  Council of the CRA Computing Community Consortium, 2010-2013  ACM SIGACT, Chair 2009-2012, Vice-Chair 2005-2009.  Chair, Local Academic Advisory Committee, TTI-Chicago, 2006-2012.  Executive Committee, DIMACS, 2000-2003.  Panel member for NSF and other funding agencies.  Computational Complexity Weblog and Twitter, thousands of daily readers.</p>
<b>Editorial Positions</b>	<p><i>ACM Transactions on Computation Theory</i> (Founding Editor-in-Chief 2007-2010)  <i>Journal of the ACM</i> (2005-10)  <i>Lecture Notes in Logic</i> (2003-08)  <i>Information and Computation</i> (2001-2009)  Scientific Board, Electronic Colloquium on Computational Complexity, 2005-2008  <i>The Chicago Journal of Theoretical Computer Science</i>  Computational Complexity Column in <i>Bulletin of the European Association for Theoretical Computer Science</i>, 2000-2004</p>
<b>Program Committees</b>	<p>IEEE Conference on Computational Complexity 1995, 1999 (Chair), 2008, 2014  ACM Conference on Electronic Commerce 2004, 2006, 2009 (co-Chair)  IEEE Symposium on the Foundations of Computer Science 2002, 2006  ACM Symposium on the Theory of Computing 1997, 2013  WWW Conference E-Commerce Track 2003  Theoretical Aspects of Rationality and Knowledge 2007  Computing: The Australasian Theory Symposium 2001  FST &amp; TCS Conference PC 1999</p>
<b>Organizer</b>	<p>IEEE Conference on Computational Complexity Steering Committee 1995-2007  Steering Committee Chair 2000-2006  ACM Conference on Electronic Commerce General Chair 2008, Workshops Chair 2007  DIMACS Special Focus on Computation and the Socio-Economic Sciences, 2004-2007 and co-organized several workshops in that focus.  Workshop on Algebraic Methods, Dagstuhl, 2002, 2004, 2007, 2009.  NSF C-CR Quantum Planning Workshop, Elmsford, New York, January, 2002.</p>

## Major Invited Talks

“Computer Science in Six-Tenths of a Second,” Distinguished Lecture, University of Massachusetts at Amherst College of Information and Computer Sciences, October 30, 2018.

“Computer Science in Six-Tenths of a Second: What Happens After Hitting ENTER in a Google Search,” Frontiers in Science Lecture, Georgia Institute of Technology, April 19, 2018.

“Bounding Rationality with Computation,” Computability, Complexity and Randomness Conference, University of Hawaii, January 4-8, 2016.

“The P v NP Problem in the Era of Fast Computing,” London Mathematical Society 150th Anniversary Computer Science Colloquium, September 17, 2015.

“Nondeterministic Separations,” Invited Speaker, 12th Annual Conference on Theory and Applications of Models of Computation, Singapore, May 20, 2015

“Bounding Rationality by Computational Complexity,” Hitachi Distinguished Lecture, University of Oklahoma Computer Science, February 6, 2015.

“Bounding Rationality with Computational Complexity,” University at Buffalo Computer Science and Engineering Distinguished Speaker, April 3, 2014.

“A Personal View of the P versus NP Problem,” Stony Brook University Computer Science Distinguished Lecturer, November 18, 2013.

“A Personal View of the P versus NP Problem,” Clay Research Conference, Oxford, England, October 2, 2013.

“A Personal View of the P versus NP Problem,” Computability in Europe European Association for Computer Science Logic Plenary Lecture, Milan, Italy, July 1, 2013.

“Bounding Rationality by Computational Complexity,” Noonan Distinguished Lecture, Georgia Tech, April 19, 2012.

“Bounding Rationality by Computational Complexity,” Computer Science and Engineering Distinguished Lecture, Texas A& M, February 15, 2012.

“P Versus NP: An Epic Struggle”, Class of 1960 Scholars Lecture in Computer Science, Williams College, December 2, 2010.

“Bounding Rationality by Computational Complexity,” Inaugural workshop of the Center for Research in the Foundations of Electronic Markets in Aarhus, Denmark, October 13, 2010.

“Peer Review in Computer Science”, Panelist, CRA Conference at Snowbird, July 19, 2010.

“Hardness of Instance Compression and Its Applications”, Keynote Speaker, Logical Approaches to Barriers in Computing and Complexity, Greifswald, February 20, 2010.

“Bounding Rationality by Computational Complexity”, Distinguished Lecturer, University of Alberta, January 25, 2010.

“Computational Awareness”, Keynote Speaker, First Asian Association for Algorithms and Computation Annual Meeting, Hong Kong, April 27, 2008.

“Beyond NP: The Work and Legacy of Larry Stockmeyer”, Keynote Address, 37th ACM Symposium on Theory of Computing, Baltimore, May 22, 2005.

“My Favorite Ten Complexity Theorems of the Past Decade II”, Invited Talk, Workshop on New Horizons in Computing (NHC)—Recent Trends in Theoretical Computer Science, Kyoto, March 3, 2005.

“Church, Kolmogorov and von Neumann: Their Legacy Lives in Complexity”, Netherlands Theory Day, Utrecht, March 7, 2003.

“History of Complexity,” 17th IEEE Conference on Computational Complexity, Montreal, May 22, 2002.

“Perspectives on Lower Bounds: Diagonalization,” DIMACS Workshop on Computational Intractability, New Brunswick, April 13, 2000.

“One Complexity Theorist’s View of Quantum Computation,” Computing: The Australasian Theory Symposium, Canberra, February 1, 2000.

“Separating Classes,” Logic Colloquium ’98, Prague, August 10, 1998.

“25 Years of P versus NP,” The 25th Anniversary Celebration for Paul Vitanyi at CWI, Amsterdam, November 15, 1996.

“My Favorite Ten Complexity Theorems of the Past Decade,” The 14th Conference on the Foundations of Software Technology and Theoretical Computer Science, Madras, India, December 17, 1994.

“The Isomorphism Conjecture Holds Relative to an Oracle,” Annual Meeting of the Association of Symbolic Logic, South Bend, Indiana, March 11, 1993.

Various seminars at universities and research labs throughout the United States and around the world.

## Publications

All of these papers are downloadable at  
<http://papers.fortnow.com>

### Book

- [1] FORTNOW, L. *The Golden Ticket: P, NP and the search for the impossible*. Princeton University Press, Princeton, 2013.

### Refereed Journal Publications
